

CareAcademy Online Caregiver Training

Welcome! A text message and/or email with login instructions are being sent your way soon. Before starting your training, let's review some things:

How can I complete my CareAcademy classes?

CareAcademy's online training works on computers, tablets and smartphones. Our courses will not work on Internet Explorer 11.

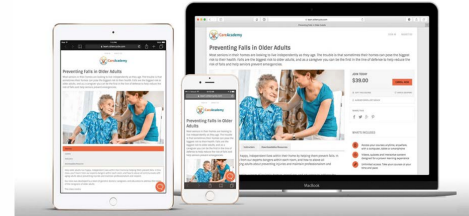

How are CareAcademy classes set up?

Each class is made up of 3-5 lessons and a final test. Once you pass the final test, you'll receive your CareAcademy certificate.

I used up all of my test attempts. Now what?

Please reach out to CareAcademy's Customer Success Team to reset your attempts.

* For best results connect to WiFi before starting your class *
